PROFILE SUMMARY

Results-driven Computer Science graduate with hands-on experience in **full-stack web development using the Angular** . Skilled in building responsive and scalable web applications with React.js, and JavaScript. Adept at **optimizing application performance**, and collaborating in cross-functional teams. Committed to **continuous learning and delivering efficient, real-world software solutions**.

EDUCATION

2021 - 2025

GLA UNIVERSITY

- Bachelor's of Technology

2020 - 2021

GAGAN PUBLIC SCHOOL

- Intermediate

2018 - 2019

GAGAN PUBLIC SCHOOL

- High School

TRAININGS

Coding Ninjas

June 2023 - July 2024

- Developed full-stack web applications using **React.js** and **Node.js** to create **dynamic and responsive user interface**.
- Implemented **RESTful APIs** to connect front-end and back-end components.
- Built with **user authentication, secure payment integration, product catalog and shopping cart**.
- Key technologies:** React.js & Node.js

Coding Blocks

June 2023 - July 2023

- Developed responsive **web designs and user interfaces** using **HTML, CSS and JavaScript**.
- Gained experience with **modern front-end frameworks** like React.
- Built a personal portfolio website with focus on **debugging and performance optimization**.
- Key technologies:** HTML, CSS, JavaScript & React.

SKILLS

- Object Oriented Programming (OOPs)
- Data Structures & Algorithm
- HTML/CSS
- JavaScript
- Angular
- React
- SQL

PROJECTS

Crypto Dashboard

<https://tinyurl.com/5652wb4>

- Created a **cryptocurrency dashboard** using **Chakra UI**, providing **real-time market data and portfolio tracking features**.
- Implemented secure user authentication for personalized portfolio management.
- Designed a responsive and intuitive user interface.
- Technologies used:** Chakra UI , React.js , JavaScript.

TOOLS

- Git
- Postman
- Visual Studio Code
- AWS

E-Commerce Website

<https://tinyurl.com/kdkuyf6>

- Developed a responsive **e-commerce clothing website** with **user authentication, product search, shopping cart**.
- Utilized React.js for **front-end development** to ensure seamless navigation and user experience.
- Implemented Node.js with MongoDB for efficient **back-end data management**.
- Technologies used:** React.js & Node.js

ACHIEVEMENTS

- Lead a team of 5-8 members in a inter-college **hackathon and sports competition**.
- Certification of training by Coding Ninjas.
- Certification of training by Coding Blocks.
- Participation certificate in a hackathon by Hack2Skill.
